

A diagram of a beam element. A horizontal bar with a cross-hatch pattern represents the beam. Above the bar, the label "EXT" is centered. Below the bar, the label "INT" is centered. A black arrow points downwards from the "INT" label towards the bottom of the beam. To the right of the beam, a small circle is partially visible.

Boîte à l'huile

100 mm

Patte à scellement

Technical drawing of a door assembly detail. It shows a cross-section of a door frame and door. A label 'Joint ISO' points to the door seal. Another label 'Patte à scellement' points to the locking mechanism. A dimension line indicates a distance of '100 mm'.
